	SOA Security TT8150: 2 days (INT)	Securing Web Services TT8500: 4 days (INT+)	

Please see the reverse side for the detailed list of offerings in each recommended Learning Track.

All courses may be easily tailored to best suit the requirements of your team and SOA initiatives.

Trivera Technologies LLC Worldwide is a skills-centric technical education services firm that offers classroom training, structured mentoring and curriculum development and licensing services in a variety of leading-edge IT skills and technologies. We provide IT managers, architects, engineers, developers and technologists of all skill levels with the techniques and best practices they require to meet their technical objectives and exceed their learning goals. Our core services revolve around creating the most comprehensive education events possible for your team, working closely with your organization to design the most effective programs possible. Our collaborative learning events and programs are tailored to help each student meet the challenges at hand while keeping sharp focus on the goals of your organization, large or small.

SOA Learning Tracks

Please note that all content is customizable to best suit the needs of your organization.

Analysts:

TT4000 IMPACT Overview: Understanding Internet Architectures - 1 day
 TT7110 Service-Oriented Analysis - 3 days

Architects and Designers:

TT4000 IMPACT Overview: Understanding Internet Architectures - 1 day
 TT5000 IMPACT Overview: Understanding J2EE - 1 day
 TT7100 Service-Oriented Analysis and Design - 5 days
 TT4005 IMPACT Overview: Understanding XML - 1 day
 TT7005 IMPACT Overview: Understanding Web Services - 1 day
 TT8350 SOA Security - 2 days

Developers:

TT1130 Applying Object-Oriented Analysis & Design Using UML 2.0 - 5 days
 TT2101 Core Java Programming - 3 days
 TT4380 Mastering XML Using Java - 5 days
 TT5160 Core Servlets/JSP Web Application Development - 3 days
 TT7150 Mastering SOA and Web Services - 5 days
 TT8300 SECURITY: Securing Web Services in J2EE - 4 days

Testing, QA, and Security Personnel:

TT7000 IMPACT Overview: Understanding SOA - 1 day
 TT4000 IMPACT Overview: Understanding Internet Architectures - 1 day
 TT5000 IMPACT Overview: Understanding J2EE - 1 day
 TT4005 IMPACT Overview: Understanding XML - 1 day
 TT7005 IMPACT Overview: Understanding Web Services - 1 day
 TT8350 SOA Security - 2 days

► For Additional Information

Need dedicated training?

All courses can be brought onsite or instructed virtually for a **private presentation**, customized to suit your unique requirements or goals. Please contact Training@triveratech.com for course details, Public Schedule dates and locations, and Special Discount Offers.

Need courseware?

Let us take the risk out of your classroom delivery! All materials are also available for corporate license with complete instructor support and free corporate branding. We guarantee our pricing and service. Samples of our course materials, as well as live client references for all of our services are available upon request. Please contact Courseware@triveratech.com for details.

For more information about our training, mentoring or courseware licensing options, or to see our complete list of course offerings and services, please visit us at www.triveratech.com, email Training@triveratech.com or call 609.953.1515.
